

# DISCOVER JOURNEY

adventure passport  
expedition born to explore

The extraordinary theme for this Vacation Bible School program is missions.

Five workshops representing countries of the world will demonstrate what it is like to be a missionary. Students enjoy cultural activities, memorize scripture, hear Bible stories and complete crafts. They will visit the exotic places of

CHINA  
AFRICA  
NATIVE AMERICA  
THE ARCTIC  
PARADISE ISLAND

Preschoolers (ages 4-5) are

THE JET SET

and study the same themes as older students geared for their level.

Missionaries are mysterious people to children. We will break through this mystery, and show our students how important it is to be someone who tells the good news of Jesus to people near and far. We will embark on an exciting journey our children will never forget! This journey will take us to mission fields that will bring alive the daily issues missionaries face. It's great fun to travel and explore God's kingdom! Save the date so your children, too, can pack their bags for this awesome trip.
